5:30 pm						

CLASS DESCRIPTIONS

AQUA AEROBICS

This class is medium to high intensity, but low impact to protect your joints. Perfect for those who are just starting back to fitness as well as those who need a new challenge? Cardiovascular conditioning, muscular endurance and strength are emphasized. No swimming ability required. All fitness levels welcome!

STRETCH

Our Stretch class is a group fitness class that focuses on improving flexibility, mobility, and range of motion through a series of stretching exercises. These classes can be beneficial for relieving sore muscles, reducing stress, and improving overall fitness. Stretching helps to lengthen muscles and increase the range of motion in joints, making everyday activities easier and reducing the risk of injury.

YOGA

Yoga encompasses various styles, from gentle practices to more dynamic and flowing practices. Gentle yoga focuses on basic postures and breathwork. Restore yoga focuses on stillness and comfort, holding poses for extended periods of time. Power yoga is a dynamic and intense form that emphasizes physical strength, flexibility, and endurance. We offer many unique styles of yoga throughout the week. All ages and abilities will enjoy this chance to wind down and refocus priorities while increase flexibility and strength. All levels are welcome!

CORE BLAST

Core Blast is a unique workout that focuses on strengthening and engaging the core muscles, including the abdominals, lower back, and stabilizing muscles, often through a variety of exercises and movements. This class will target the muscles that support the spine and trunk, including the rectus abdominis (abs), obliques, lower back muscles, and pelvic floor muscles. Strengthening these muscles can improve posture, balance, stability, and overall athletic performance, as well as reduce the risk of back pain.

TOTAL BODY FITNESS

A total body workout routine concentrates on strengthening, toning & tightening your entire body with the use of free weights and exercise balls. Total body fitness is a workout that engages all major muscle groups, combining strength training and cardiovascular exercises to improve overall fitness and well-being. All levels welcome!

PILATES

Pilates is excellent for gaining core strength and this beginner class is the perfect way to start building a stronger midsection that will be less prone to injury. Pilates is a body-conditioning exercise method that focuses on strengthening and coordinating the core muscles, improving posture, and increasing flexibility. Having a strong core can protect the back from injuries and ailments such as sprains, stiffness, and even bouts of sciatica. All fitness levels welcome!

BARRE

Barre is a form of exercise that combines elements of ballet, Pilates, and yoga to create a challenging and toning workout. They focus on small, isometric movements that target and strengthen specific muscle groups, particularly the legs, arms, and core. The class is taught at the barre with weight training and some additional floor work. All

FLOW TO FIT

is a beginner-friendly class that blends gentle yoga flow with functional strength and mobility exercises. Designed to build a strong foundation, this class helps you increase flexibility, improve balance, and develop core stability.
